

Asset Performance Technologies Rapid Results Program

The Asset Performance Technologies Rapid Results program is a one-week onsite engagement designed to assist clients in evaluating the potential benefits of our Preventance APM™ software platform and consulting services. We spend up to 5 days working side by side with a small number of your team utilizing Preventance APM and with your basic maintenance and cost data, jointly perform an optimization on a subset of your assets. The optimized preventative maintenance (PM) strategies are ready to deploy by the end of the week.

Impact of PM Program:

These are the failure mechanisms that lost highly effective protection, click to view.

Type of Impact	Baseline	Increased Benefit	Maximum Benefit	Custom	Change (%)
Annual Direct PM Cost	\$1,597			\$1,317	-18 %
Annual Total Cost	\$3,605			\$3,317	-8 %
Net Benefit	\$29,486			\$29,774	1 %
MTBF (Years)	117			118	1 %

Optimize NOTE: Optimized strategies are dependent upon accurate economic data inputs. Visit the Econ Data tab under Component Setup to setup your cost parameters.

Strategy: PM Tasks, Intervals and Other PM Information

PM Task Name	Baseline Interval	Increased Benefit	Maximum Benefit	Custom Interval	Task Objective and Scope	Hold Interval
Calibration	2Y				View Details	
Damper Actuator Inspection	AR				View Details	
System Engineer Walkdown	2Y			3M	View Details	
Internal Inspection	6Y			6Y	View Details	
System Testing - Functional Tests	AR				View Details	
Operator Rounds	15			3M	View Details	
Motor Current Monitoring	AR				View Details	

How does APT know anything about my equipment?

APT's Asset Strategy Library™ (ASL) contains over 770 equipment types commonly found in asset-intensive industries, with 55,985 Degradation Mechanisms (FMEA rows), along with 4,867 PM Tasks and Intervals (PM Templates), and 169,947 As Found Reportable Conditions. With this extensive database of equipment types, times 8 operating contexts, we have over 6,100 RCM analyses already done for you by APT equipment experts.

How much does the Rapid Results program cost?

Clients only pay for travel expenses, typically \$2,500 - \$3,000 for one consultant to be onsite for 5 days.

What benefit can I expect to achieve through the Rapid Results program?

Leveraging the available APT expertise and technology, the Rapid Results program allows your organization to perform a risk-free evaluation of Preventance APM and the benefits it provides. In addition, since the program is focused on your actual assets, real savings are identified that typically more than exceed the cost of the engagement.

Rapid Results Program

How do I get started?

Just call or email us to set up a Rapid Results qualification call. We keep it simple, easy, and perform the engagement with little impact on your current operations.
